Profile:

Welcome to my Curriculum Vitae. As a computer science, software engineering major. I'm fueled by a passion for programming, I strive to create innovative solutions that merge technology.

About Me:

I am from Assia, a village in the mountains of the Batroun district. I got my education in Batroun. I am an enthusiastic science and engineering student, deeply passionate about programming and engineering, and eager to explore the intricacies of these disciplines. I find happiness in coding, solving problems and errors, and uncovering the principles that shape our world from A to Z. I am also actively expanding my knowledge in the field of machine learning (ML). Throughout my academic journey, I have continuously strived to develop my skills and make meaningful contributions to the ever-evolving fields of science and technology.
